

GENERAL PLAN PRESENTS OPTIMISTIC OUTLOOK

First copies of Drayton Valley's General Plan were received here last week and present an optimistic outlook for the future of the community. Surveys and studies undertaken by the firm of Makale, Holloway and Associates, Planning Consultants, suggest that the town will likely continue to grow slowly and steadily as it increases in importance as a market centre.

THE WESTERN REVIEW

DRAYTON VALLEY, ALBERTA

VOL. II, NO. 39 SEPTEMBER 28, 1966 PRICE 10¢

Meeting Studies Karnival Failure

Widely divergent views on all aspects of Drayton Valley's annual summer river-side event were expressed at a meeting of the Klondike Kampers Karnival committee in the Town Hall last Thursday evening.

The event has suffered financial set-backs on two successive years, the first due to inclement weather; and Thursday's meeting attempted to find the reason for this year's failure.

Expenses for the event this year came to \$3,594 and income \$3,490 with a subsequent loss of about \$130. Figures, however, are still not complete and final analysis could possibly eliminate the \$130 deficit.

As could be expected, the meeting was not wildly enthusiastic about the prospects of next year's KKK which will be one of three big events scheduled for spring and early summer. In May the Centennial Canoe Pageant will be here followed by the Centennial Caravan the first three days in July. Then about mid-July the White Water Race and KKK.

NEW PROBLEM

To further complicate the issue, the Calgary Stampede and Edmonton Klondike Days will be split between the two cities for three weeks. The Calgary show will close on a Wednesday and Edmonton's open on Thursday. This posed a problem for the local committee as to where the Drayton Valley event, (normally held on the weekend) would fit in between Edmonton and Calgary.

The meeting was unanimous in its praise of several facets of the event which were

thought to have improved immensely this year. Among these were the parade, stage show and uptown entertainment.

There was also, however, a strong feeling among those attending the meeting that the event was heralded far and

Continued on Page 2

Copies received here by Council are the first printing of Part One of the plan and are intended for correction purposes before the final copies become available in about a month's time. The General Plan is intended as a guide for orderly development of the town accomplished by projecting potential and likely trends of the community over the next twenty years.

Population study shows the peak was reached here in 1961 with 3,854 inhabitants followed by a steady decline during the past five years by migration of transient workers bringing the present population figure to 3,305. The planners believe it likely that the population will remain near its present level for the next few years and then begin a steady growth based on its function as a market centre that should reach about 5,598 by 1986.

The population growth is expected despite an anticipated decline by 30 percent in persons employed in the oil industry by 1981 based on surveys of oil companies in the area.

INCREASE LIKELY

The report states that: "The present population decrease has been evident since 1961, but in spite of this, the sales volume has increased considerably during the last five years. The increase in sales has been achieved partly through increased purchasing power among both townspeople and rural population, partly through extension of the boundaries of the trading area."

Both these trends are likely to continue, the report states, as the farm units become more

Art Club Exhibit

Mrs. L. Nelson (left) and Mrs. H. Zolmer, secretary and president respectively of the local art club, are shown above admiring a small painting before a backdrop display, part of the club's exhibit held in the Elks Hall Saturday afternoon.

Calgary Hilltops Play 'Cats Sunday

Mike Gormley, manager of the Drayton Valley Wildcats, states that arrangements for the hosting of the outstanding Calgary Bantam Football club, the Tuxedo Hilltops, is well under way.

The Calgary team is to arrive Saturday evening and will be billeted with various Wildcat players. Game time Sunday is 1:00 p.m.

After the game the Calgary club will be guests of the Drayton Valley Athletic Association for a hot dinner at the curling club--the meal arrangements and preparation is being capably handled by Mrs. Ward and Mrs. Bouschard. The two ladies are being assisted by Dave Disney and Rick Simon.

Even though the Calgary Hilltoppers have chalked up such scores as 53-0 against fair competition, the local boys are determined to batter through this game with an intensive effort. Both teams have excellent quarterbacks in a country that is just not producing quarterbacks and the local fans can look for very varied offences.

The Drayton Valley Wildcat backfield work will be carried out by Stefan Hoge, Stan Oulton, Don Bouschard, Don Bartlett, Ricky Gabrielson and Clarence Platz.

Sunday, October 2nd should prove a memorable afternoon for local football supporters all that can be asked for is co-operation from the weatherman.

Electric Power Interruption Sunday

A new transformer substation for Calgary Power Ltd. will be put into service on Sunday morning, October 2nd. An interruption in power service will be necessary between 6:00 a.m. and 10:00 a.m. while the change of primary voltage is being effected.

Plan Pleasure Canoe Trip

A family pleasure paddle from Mobil Oil Water Plant on the North Saskatchewan River to Klondike Kampers Camp Grounds has been planned. The Drayton Valley Paddlers Canoe Club invites all canoeists, kayakers, rafters, etc., to take part in this outing on Sunday, October 2nd.

The Club plans to leave the plant at 2 o'clock and picnic at the grounds, everyone please bring your own lunch.

This is the first venture of its kind taken by the newly organized club and it hopes all interested paddle enthusiasts will take part.

Volleyball Meet

A meeting for all persons interested in playing volleyball will be held in the Recreation Office in the Town Hall on Thursday, September 29th at 7:30 p.m.

It is hoped that people interested in volleyball will be able to play every Thursday evening at 7:30 p.m. at St. Anthony's Separate School.

Mike Gormley
Wildcats Manager

Hockey League Formed

At a meeting in Edson last Sunday, plans were completed for a new senior hockey league to operate in Western Alberta this winter. To be known as the Northwestern Hockey League it will embrace senior teams from the communities of Edson, Jasper, Hinton and Drayton Valley.

Prospects for the new league are bright and should produce an excellent calibre of hockey. All communities in the league have covered arenas and artificial ice although start of the season may be delayed slightly awaiting the completion of facilities in Edson and Drayton Valley.

Attending Sunday's meeting from Drayton Valley were Harold Reinhart, Ron Meier, Bill Hutchinson and Lyle McGinn.

Mr. Reinhart, present manager of the Drayton Valley Rebels, stated that a local meeting to re-organize the club will be held on Thursday, October 6th at 8:00 p.m. in the Recreation Office in the Town Hall.

All those interested in the senior hockey team are urged to attend this meeting and help get the new season and league off to a good start. Assistance is required from anyone interested in the management side of the team such as trainers, equipment men, goal judges and so forth and all are asked to attend the meeting along with prospective players.

The club is now in the process of raising funds for the purchase of new uniforms by raffling a 21 inch color TV.

OPTIMISTIC OUTLOOK

Continued from Page 1

economical and as the specialized services are attracting more and more people from beyond the primary trading area.

Being a new community the secondary trading area developed late and is still underdeveloped. There is scope, the report notes, for expansion of secondary services with an increase in commercially employed people to offset those being lost in the gas and oil industry.

The planning consultants point out that the population projection is only a guide for future growth of the town and related land use and installation of services and utilities. It would be unwise, they state, to consider the population projection as absolute figures as there could likely be periods of slower and faster growth. The assumed increase is 3.4 percent annually and is considered only as an average.

ALL FACETS

The General Plan covers all facets of the community and in studies concerning the economic base, notes that production of crude oil has had a steady upward trend with production in 1964 of 40,607,165 barrels for the Pembina Field, which represents about 23 percent of the total Alberta production for that year. The proportions of Pembina production in relation to the Alberta total have lately been changed by discoveries of new large reserves in other areas.

However, crude oil production in the Pembina Field to date represents about 23 percent of the total initial reserves of about 690,000,000 barrels, and with an average annual production of 37,000,000 barrels, the presently known reserves would last from 25 to 30 years.

In 1964, 2,819 wells, close to 30 percent of the Alberta total, were located in the Pembina Field and 60 gas and oil companies have invested interests in the field. About half of all employed people over 21 years of age in Drayton Valley are working for oil and gas companies.

The development of timber resources and increased tourist trade are noted by the report as possible factors to help offset the decline in trade from the oil and gas source.

Construction of a pulp mill at Whitecourt is expected to start in January, 1968 which will utilize forest reserves West of the Pembina River. Forest Management Unit W-6 (West and North of the Pembina River and South of Highway 16) has been leased by MacMillan, Bloedel and Powell River Ltd. The use of these forest reserves will likely influence the development of Drayton Valley, the largest service centre in the proximity of the forest district.

The forested area South of the Pembina River is also under exploratory permit and the possibility of another pulp mill in the direction of Rocky Mountain House would again increase the service function of Drayton Valley.

The report states there is a

possibility of increased tourist traffic when the paving of the remainder of Highway 57 is completed and increased stimulus would be felt if the cut-off highway between Drayton Valley and the David Thompson Highway route is constructed.

INCREASED TRAFFIC

In both cases, the destination of the majority of tourists would be outside the Drayton Valley area, but as in the case at Edson, the increased traffic would contribute to the local economy.

Dealing with agriculture, the report states that the area has been gradually cleared of forests during the past four decades and farming is now an important rural industry. Soils in the area range from degraded black to grey-wooded types.

Following an earlier decline a recovery period in agriculture started after 1956. The acreage of cropland increased, especially in forage crop production, and as the average size of farms also increased, the economic position of the farm population improved.

Recent soil capability maps prepared by ARDA indicate that most of the area has soils with "moderately severe limitations that reduce the choice of crops or require special conservation practices." The limitations are due mostly to topography, low fertility or poor soil structure.

The general plan notes that there has been a slower decrease in farm population during recent years, and as some pressure still exists in this area for opening up more farm land, the assumption may be made that the total farm population will remain stable during the planning period under consideration.

In commenting on the trading area the report states that the town has established a strong central function for a wide rural area with resulting

employment contributing to the growth of the town. It notes that there has been a gradual decline in agricultural population in the trading area during the last 20 years, but the rate of change has been much slower during the last ten years.

The population of the trading area has more than doubled since 1951 and is now about 16,000.

The report states that the most likely trend for the local trading area is that it will remain stable or undergo a slight increase. Although no substantial population increases are foreseen for the present trading area, the prospect for the town as a market centre is favorable. As a centre for a trading area of 16,000 to 20,000 inhabitants, it is already in a very strong position and with increased purchasing power the sales volume should increase even in an area with a stable population.

TRADE AREA GROWTH

Also, the report states, the quality and scope of services provided by Drayton Valley will tend to enlarge the present trading area.

The plan in commenting on residential land notes that pockets of poor housing exist in the town and stresses a need to establish the quality of existing housing conditions and to determine the need for replacement of substandard dwellings. To replace and provide an adequate standard the report suggests about 150 additional residential units.

It concludes that available residential land is adequate to meet present needs but that by 1985 the town might need approximately 180 acres of additional land.

Regarding commercial and industrial land it is noted that considering the prospect of a possible slowdown in the oil industry, the amount of vacant industrial land seems to be adequate. The vacant industrial

Karnival Failure

Continued from Page 1

wide but did not have enough overall appeal to attract many people from outside the immediate Drayton Valley area. The suggestion that the show for next year be held at the river-side on a limited scale received considerable support.

However, there was also considerable discussion on the merits of moving the event entirely away from the river, with the natural exception of canoe and raft races, and

lots total about 17 acres which would allow for a substantial addition of small and medium-sized establishments within the present industrial section.

In case any primary or large sized industries are attracted to Drayton Valley, sites will have to be provided outside the industrial section.

The report also covers education, recreation facilities, roads and financial position of the community.

making use of the Centennial Civic Centre which would eliminate the weather hazard.

Time lags between events, and the necessity of moving between town and river for various events, were cited as detractors to last summer's KKK.

Possibly receiving the strongest support from those in attendance was the suggestion that the event be reduced from two days to one big day. Along with this came suggestions for more participation events such as old time fiddlers contest, street dances and similar attractions. A change in name from Klondike to the frontier or pioneer theme also received some support from the meeting.

Several recommendations arising from the meeting will be presented to the Chamber of Commerce, sponsors of the event, for consideration at the next regular meeting of that body,

Community Service \$4449 for Year

A recently audited statement for the Drayton Valley Rotary Club shows a total of \$4,449.08 spent by the club last year on community service activities.

The club reports that the wet summer this year prevented completion of the park but announced at the same time that big plans are underway for the Centennial year.

Rotarians again will solicit public support for their program with an auction sale on October 1st and turkey cards and pools during the fall and winter.

Following is a statement prepared by L.A.E. Krauter of the club's community ac-

count cash receipts and disbursements:

Cash in Bank as at July 1st, 1965, \$682.97.

Receipts: Calendars (Advertising and sales), \$1044.13; Turkey Cards, \$960.64; Hockey pools, \$904.00; Carnival Booths, \$869.76; Miscellaneous, \$52.85. Total receipts, \$4,514.35

Disbursements: Calendars, \$549.64; Turkey Cards, \$253.17; Hockey Pools, \$640; Carnival Booths, \$768.37; Rotary Park, \$1748.17; Xmas Hampers, \$158.36; Student to Ottawa (Adventure in Citizenship), \$133.35; Guests' Meals, \$55.50; Leadership Course, \$60.00 and Miscellaneous, \$82.52; making a total of \$4,449.08.

Cash in Bank as at June 30, 1966, \$65.27.

Ride the Pontiac winning streak!

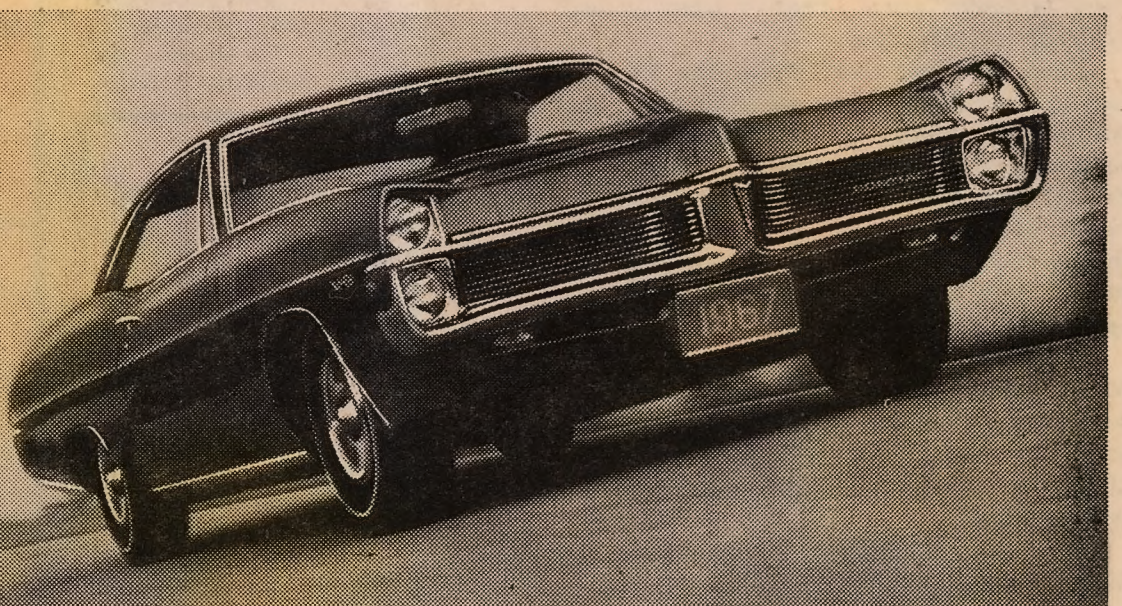

Introducing the adventurous new Pontiacs for 1967!

Grande Parisienne Sport Coupe with optional vinyl top

The biggest car news for 1967 comes from Pontiac. Canada's perennial Success Car gets away to yet another flying start with new styling, new models, new interiors, new safety features and new glamor options. Grande Parisienne, Parisienne, Laurentian and Strato-Chief series all have completely new

styling. Bowing in is a brand-new series called 2+2. It's the last word in full-size adventure cars. Whatever you want most from your new car in 1967—luxury, high style, performance or practicality—you'll get it from one of Pontiac's 52 new models. Pontiac is for today's kind of people. People like you!

Parisienne 2+2 Sport Coupe

While safety is an intrinsic part of everything engineered into Pontiac, we'd like to list here some of the more notable standard safety features in every '67 Pontiac: Four way hazard warning flasher; dual master cylinder brake system with warning light; seat belts—front and rear with push-button buckles; GM-developed energy-absorbing steering column; passenger-guard door locks—all doors; inside day/night

mirror with shatter-resistant vinyl-edged glass and breakaway support; lane-change feature incorporated in directional signal control; energy-absorbing instrument panel with smooth-contoured knobs and levers.

On display at your Pontiac dealer's tomorrow

Try Forming a Pleasant Habit

In this day and age when so many of us rely almost entirely on television for recreation and entertainment there exists a real need for many people to broaden their horizons by venturing into another medium that provides both entertainment and education in a most pleasant measure.

We are speaking, of course, about reading which is rapidly becoming an almost lost art for many people. Books open new vistas and are able to report in depth in a manner impossible to television or radio. They are a source of joy to youngsters, who are also the target of many TV programs, and yet find time to explore the avenues of learning and entertainment through books.

Many adults could very well follow their lead, and for anyone so inclined, the Drayton Valley Library is a good place to start. The library staff works hard at keeping current titles on a wide range of subjects always available and go out of their way to provide information or help required.

The library needs more adult book users—and though we may not be aware of it, we need the library facilities—many of us need it badly. Why not try reading a few books? We warn you it's habit forming, but you'll never cultivate a habit that provides greater satisfaction.

Prayer for the Middle Aged

Lord Thou knowest better than I that I am growing older and will some day be old. Keep me from the fatal habit of thinking I must say something on every subject and on every occasion. Release me from craving to straighten out everybody's affairs. Make me thoughtful but not moody; helpful but not bossy. With my vast store of wisdom it seems a pity not to use it all, but Thou knowest Lord, that I want a few friends at the end.

Keep my mind free from the recital of endless detail; give me wings to get to the point. Seal my lips to my aches and pains, they are increasing, and a love of rehearsing them is becoming sweeter as the years go by. I dare not ask for grace enough to enjoy the tales of others' pains, but help me to endure them with patience.

I dare not ask for improved memory, but for a growing humility, and a lessening cocksureness, when my memory seems to clash with the memory of others. Teach me the glorious lesson that occasionally I may be mistaken.

Keep me reasonably sweet; I do not want to be a saint—some of them are so hard to live with—but a sour old person is one of the crowning works of

the devil. Give me the ability to see good things in unexpected places, and talents in unexpected people. And give me, Lord, the grace to tell them so. Amen.

OFF-BASE PREDICTIONS DEPARTMENT

When it gets along to about October each year with its morning briskness and early darkness I look forward to winter with all the enthusiasm of the principal invitee to a cannibal banquet. However, my winter enthusiasm is boundless compared to Gloomy Gus who wrote the following "London Truth", an article published on September 1, 1881.

"The Canadian Pacific Railway will run, if it is ever finished, through a country frost bound for seven or eight months in the year, and will connect the western part of the Dominion with a province which embraces about as forbidding a country as any on the face of the earth.

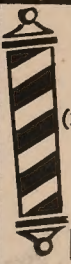

British Columbians, they say....believe that prosperity will come to them when the line is made. This is a delusion on their part. British Columbia is barren, cold, mountain country that is not worth keeping.

A friend of mine told me--and he knew what he was talking about--that he did not believe the much touted Manitoba Settlement would hold out many years. The people who have gone there cannot stand the coldness of the winters.

Men and cattle are frozen to death in numbers that would rather startle the intending settler if he knew; and those who are not killed outright are often maimed for life by frost-bites.

Canada is one of the most over-rated colonies we have, but it is heartily "loyal" and makes the loyalty pay.

As for the country as a whole it is poor and it is crushed with debt. The Supreme government owes about 35 mil-

Centennial Report

1867 | 1967

by JOHN W. FISHER
CENTENNIAL COMMISSIONER

A few weeks ago I wrote about the Confederation Train and the Centennial Caravans which will be criss-crossing Canada during the summer months of 1967 with exhibits of Canadiana.

During the second week of June we had test-run, set-up and dismantling trials for the Caravans at communities in the Ottawa area. It was quite an exciting operation--almost like a big army test exercise.

The first eight enormous tractor trailers--the largest vehicles ever to be used extensively on North American roads--travelled all the way to Ottawa from Calgary where the vans were made by the Alberta Trailer Company. The eight 73-foot vehicles represented one of the eight Caravan units which will visit more than 700 Canadian communities in Centennial Year.

While the trailers were not decorated on the outside nor did they contain interior exhibits for the trials, there was much exacting work to be done.

The setting up of a Caravan on site is like putting a giant Mechano set together. First the drivers must be able to bring the huge vehicles to the site, squeezing around tight corners through underpasses and under wires, move the vans into a quadrangle formation on site and then remove the tractors.

Drivers--there will be 88 of them specially trained and under contract for the eight Caravans in 1967--must be able to park the vans with the skill of a precision machinist so that matching ramps and bridges can be placed quickly to connect the vans on site. (This ramp arrangement allows Centennial visitors to move easily through the huge trailers and view the exhibits in a

complete sequence).

Outside the trailers in the quadrangle, large triodesic forms go up next (tubular steel triangle construction) on which will be placed the external exhibits. When the set-up job is done--in about two hours' time--the complete set is on site ready for a colorful Centennial community fair.

On hand for the trials at Ottawa were observing officials of numerous organizations which will be involved with the Caravans--provincial police of several provinces, the RCMP which will have security officers with the units in 1967, fire marshals, members of the Defense Production Department, the Canadian Government Exhibition Commission, the St. John's Ambulance Corps, the Chrysler company which provides the tractors and so on.

On the highway the Caravan units will travel in convoy 200 feet apart to allow traffic to pass easily. In convoy travel they will be under police escort at all times. A convoy will be a mile long. (One trac-

tor alone with trailer is almost equal to eight car-lengths.)

So the arrival of a Centennial Caravan in your community won't go unnoticed very easily. Your local Centennial organization will be announc-

ing the date of arrival well ahead of time anyway.

Be sure to visit the Caravan for a great display of interesting and entertaining exhibits about Canada. There is something for the whole family to see.

Quick!

Do you know the name of your insurance company?

Don't be surprised if you find it's the "Royal" After all, it's the largest general insurance group in Canada. Chances are you didn't know that! You see, the Royal does not have salesmen. It deals through independent agents, like us. We are neighbours to you; we're impartial--the best kind of insurance men to know your needs. It's an arrangement that works well for you.

'This is the Life' Starts 15th Year

Believe it or not, TV's most surprising hit is a religious program. It's the 21 award-winning "This is the Life" which is a dramatic portrayal of the Christian faith in action produced by the Lutheran Church - Missouri Synod. It will begin its 15th year on Sunday, October 2nd and will mark the event by releasing a new series of 26 programs in full color.

Beginning with only six stations fourteen years ago, the record-setting Lutheran program has constantly expanded its coverage until today it ranks among the most televised programs in the world. The number of stations currently carrying the program in the United States and Canada every week has reached the total of 376. In addition, it is being seen in a growing number of foreign countries.

D. V. Highlights

BY MRS. EDITH DEBY

Larry and Donna Beckett were home from Edmonton for the weekend. Donna is almost finished her business course and Larry is beginning a two year course in photography.

In spite of all the good resolutions to "study hard and not come home every weekend", several of our new university students were to be seen about town on Saturday.

Visitors to the art exhibit were full of praise for the fine collection of local talent. Subject matter and materials were in a wide range. Anyone could find something to his taste. Speaking of taste those artists

can cook, too, can't they?

The choral group under the leadership of Mr. D.E. Humphreys is practising diligently and we can expect to hear exciting things about it during the coming season.

Mr. and Mrs. Len Milner of Lethbridge, are visiting their son-in-law and daughter, Mr. and Mrs. D.E. Humphreys. Mr. and Mrs. Milner were raised in the Kasimer district north of Lethbridge and were childhood friends of the MacKenzies. The Milners and Mrs. Schuman, Miss Margaret MacKenzie, Mrs. Francis Law and Mr. John MacKenzie had a

wonderful time with their "Do you remembers?"

The September cover of the Country Guide holds special interest for old timers of this district. It shows Mr. Tom Davis examining grapes at his Niagara Falls farm. Mr. Davis is homesteaded the farm on which the Lion's West Valley Park is located. He sold to his sister-in-law, Mrs. Richard Davis, shortly after the first world war. Mr. Davis was crowned the first grape king of the Niagara district a decade ago.

PLAN SHOWER

There will be a shower for Dolores Pequin on October 3rd at the Violet Grove Community Hall starting at 8:00 p.m. Everyone is welcome.

4-H Garden Club To Reorganize

The Drayton Valley Garden Club held its final meeting for the 1966 season last week.

A letter from Mrs. Jubinville District Home Economist announced the top five placings in the club for this year: Valerie Hutchinson, Marilyn Vowk, Cindy Vowk, Eileen Kjorlien, and Kathy Kjorlien. Valerie will be club week delegate. The club won the award for being the best club in the district.

Thanks members and parents for all your co-operation. Lets hope we can have as good a

club next year.

Due to new regulations all clubs now have to reorganize in the fall. There will be a reorganizational meeting to be held in the Recreation Room of the Town Hall on Friday, October 7th at 7:30 p.m. Anyone interested in joining is cordially invited to attend or have your name and land location sent in with one of the members.

The club would also like to thank Mr. Smith who took time, with very little notice to cover our achievement day.

Calgary Power is proud to announce 1966 Award Winners

Panel of Weekly Newspaper Editors choose Alberta Junior Citizens of the Year.

The people at Calgary Power are pleased to honour these boys and girls whose enterprise and leadership won them 1966 Junior Citizen of the Year awards. We gratefully acknowledge the help and active participation of Alberta Weekly Newspaper Editors who have

played such a large part in making this program a success. In addition, we thank the responsible men and women of our province who sent in Alberta Junior Citizen of the Year nominations.

From left to right (front row)

KEITH WRIGHT, Edmonton, Alberta

This heroic 11-year old boy saved a little girl from drowning. While on a Boy Scout hike in Rainbow Valley he prevented a bush fire from spreading. Nominated by Germaine Dalton, Edmonton.

ROY UMBACH, Carstairs, Alberta

Despite a severe physical handicap, this courageous 10-year old boy shows amazing dexterity in living a next to normal life. He spends a great deal of time in community and public service activities. Nominated by Mr. and Mrs. Stephen Stiles, Carstairs.

ERNEST JOHN McCLAIN, Strathmore, Alberta

This 13-year old boy has shown great responsibility and generosity in devoting himself to the care and welfare of a young handicapped friend. Nominated by Mrs. Bert Martin of Gleichen and Mrs. J. Warrack of Cheadle.

From left to right (back row)

LARRY BOTA, Fort Macleod, Alberta

14-year old Larry risked his own life and saved his father from their burning cabin. He is active in both scholastic and community endeavours. Nominated by Mr. and Mrs. Harry Hoeksema, Mrs. George Buzunis, Fort Macleod and Mrs. N. E. Johnson, Blairmore.

CALVIN HOLLAND, Sundre, Alberta

This alert teenager showed unusual courage in rescuing a small child from drowning. His quick thinking and fast actions averted a great tragedy. Nominated by L. J. Rushka, Sundre.

TERRY BURNAT, Jenner, Alberta

Terry who is 16 years, has taken over the management and operation of her farm household. She was also an Efficiency Winner of the Jenner 4-H Beef Calf Club this past year. Nominated by Norma Jean Gray, Brooks.

RIMBEY JUNIOR HIGH SCHOOL STUDENTS

represented by **BERNIE BARTKO** and **GREG TROITSKY**

This enterprising group has supported two foster children in Korea and Italy and contributed to the care of six children in Zambia through their initiative in selling magazines and newspapers. Nominated by Helen Cooke, Rimbey.

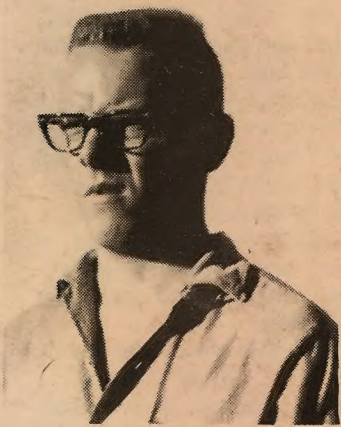

The Alberta Junior Citizen of the Year Program is sponsored by Alberta's investor-owned electric utility companies, with the co-operation of Alberta's Weekly Newspaper Editors.

Extend Library Hours

Commencing Friday, October 7th the library will be open an additional evening each week. The new schedule is as follows: Tuesday and Friday at noon for bus children; Tuesday and Friday afternoons from 3:00 to 5:00 p.m., and Tuesday and Friday evenings from 7:00 to 9:00.

The following excerpts are taken from the "Esquire Party Book" newly arrived at the library. On advise to the host whose guests linger on, "If some guests simply cannot end an evening, you must make the best of it, perhaps even be flattered. While you may learn to refer casually to morning meetings, or lead up to gourmet discussions of breakfast, you must resist the temptation to close the bar, prepare black coffee, or yawn."

Dozens and dozens of mouth watering recipes include "Caviar Omelet", "Screwdriver's Orange Juice", "Green Goddess Dressing", "Drake Vesuvius" and "Cheese Charlotte".

Erica Wilson's new book, "Crewel Embroidery" gives instructions for making sixty four stitches and suggestions for suitable fabrics and articles that can be made.

"The Menorah Men" by Lionel Davidson begins in the Israeli Embassy at one end of Kensington Palace Gardens in London. A scroll fragment reveals startling information about the True Menorah, that great seven-branched candlestick of gold which Titus had supposedly stolen from the Solomon's Temple in A.D. 70. An exciting novel for the reader of historical fiction.

Lodgepole News

B. Schmidt, Correspondent
Mr. and Mrs. Ed Rosentreter left last weekend for a three week vacation to points in Saskatchewan and Manitoba.

Ed Moisey, Phil Petub, Roy Mundorf and John Zukowsky spent three days in the Big Valley area hunting for geese. Mr.

Moisey would not comment on the outcome of the trip.

Mrs. Charles Goett returned home from the Drayton Valley Hospital after spending a few days there.

Mr. and Mrs. Jerry Wiltse, Mr. and Mrs. Ken Williams, Mr. and Mrs. John Vanderleest, Mr. and Mrs. Gunter Schmidt, Mr. Len Kay and Mr. Richard Thomas motored to Robb last Friday to attend a Lions Club Charter Night. A good time was had by all.

Mrs. Len Kay was asked by

the United Church to organize a Junior Choir.

Mr. and Mrs. Ed Moisey spent the weekend at Andrew, Alberta. While there they attended a 50th wedding anniversary for Mr. Moisey's uncle and aunt, Mr. and Mrs. Harry Motichuk.

Mrs. Shirley Mundorf is convalescing in the Drayton Valley Hospital.

Mr. and Mrs. Gerald Wiltse left to attend a funeral for a relative, Gerald Airey of Halkirk.

Step up!

step into the wonderful world of CHRYSLER '67!

Every new 1967 Chrysler product comes equipped with all these safety features . . . standard!

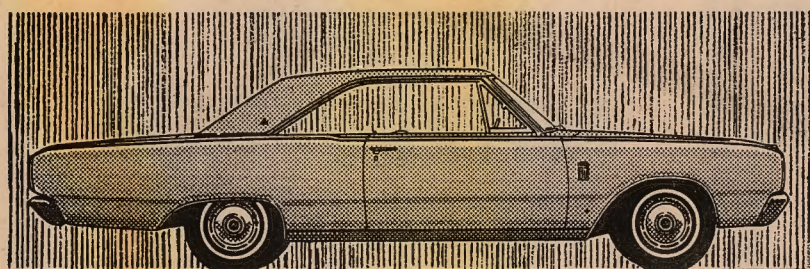

Impact-absorbing steering column • Safety-designed instrument panel • Hiway-hazard light-flashing system • Dual braking system with self-adjusting feature • Remote-control driver's side mirror • Prismatic rear view mirror • Back-up lights • Variable-speed windshield wipers • Windshield washers • Padded sun visors • Safety-Rim wheels • Safety-design door handles • Safety lap belts on all seats.

Coronet 500 2-Door Hardtop — 117-inch wheelbase

Swinging Coronet

If you're looking for a happy medium between compacts and standard-size cars . . . Swinging Coronet is the happiest of them all. Coronet is no scaled-down look-alike. Coronet is beautifully itself — lively, fresh, young. Coronet comes in 13 models — convertibles, hardtops, sedans or wagons — including the all new, red-hot R/T. Get with the happy medium by Dodge. Coronet.

Dart GT 2-Door Hardtop — 111-inch wheelbase

NEW COMPACT: Dart is an altogether new kind of compact. It's small enough to be a compact; big enough to be by Dodge. Dart says owning a compact doesn't mean giving up things. Like big room, luxury, performance and comfort. Dart gives you another thing other compacts don't — a choice of 2-door hardtop and convertible. The only thing compact about Dart is its price. See Dart. The compact Dodge is proud to put its name on.

DART

CHRYSLER

This is the year to move up and enjoy the Chrysler way of life. For 1967, Chrysler offers five glamorous series — the modestly-priced Newport, the Newport Custom, the exciting Chrysler 300, the elegant New Yorker, the Town and Country Wagon series. Each series has its own distinctive, individualized styling. For 1967, Chrysler enhances its reputation for quality and prestige that has made it the most wanted car in its class. Design refinements, extra touches of luxury, and a complete new safety 'package' make this car even more desirable. Move up — enjoy the Chrysler way of life.

CAMERON WARD

fashion news

BY NANCY GAYLORD

FASHION CONSULTANT TO THE 160 SINGER CENTERS IN CANADA.

Out goes the Granny and in comes the pant suit... so says Daniel Hechter, handsome 27-year-old designer from Paris. Daniel thinks women should look feminine, however. Sound like a contradiction? Not at all! The pale color and soft line of the jacket gives the trouser suit feminine flourish.

There's a trick to sewing pants that fit. Sit in a hard chair, measure at side in a straight line from waist to chair seat. Add one inch and that is the measurement your pattern should be from waist to crotch in a straight line at the side. Adjust by folding or cutting and spreading the pattern on the alteration line. Shorten or lengthen the back by the same amount.

Steel yourself! The lowly steel wool, handy kitchen helper, has magnificent ambitions. It's going into high fashion. That's the word from an American firm. When stainless steel is blended into a fabric, even in minute quantities, the fabric becomes permanently static-free, eliminating pilling. The knights of old soon will have nothing on us with their chain armor.

What's a Sin dress? It's the new in word for cocktail dress. One of the most innocent-as-a-lamb Sin dresses I've seen was silky, snow-white cotton, high, high waisted with a gently gathered skirt ending in see-through eyelet two inches above the knee. Easy to make yourself with the bordered eyelet fabrics available for summer brides.

Are you slim and under 30? Then get with it! Shorten those skirts to at least an inch above the knee, and anywhere up to four inches above if your knees are delicate and dimpled. With

this new emphasis, wear shoes strappy, cut-out and baring... very low heeled for a leggy look.

Because of the tiny distance between hem and waist produced by soaring hemlines, your hem turn-up should be no more than 1½ inches. Any wider hem will look out of proportion. Have a friend check that your hem is the same distance from the floor all around, while you wear the proper shoes. I find men are good at this because they are so exact.

Do you buy or sew your clothes? Whichever you do, you're concerned with obtaining clothes that spell quality at a reasonable price. What marks the 'quality look'?

1. Good fabric in
2. A fashionable and flattering color.
3. Notions — Are buttons, zipper and trim good looking and well applied? are they suited to the garment in design and color?
4. Finishing: Is the hem straight on you? Is it the proper length and unnoticeable?
5. Are there linings and interfacings where strain will occur and where body is required?

Sometimes a change of buttons will transform a garment's appearance. If your budget is limited, restrict your choice to a simple, well cut garment without trim.

Prices include the high cost of labor and materials required to apply trim such as fancy braids. Sometimes, by removing fancy buttons and trim you will have a more classic looking dress than can be worn on more occasions.

Fashion Show Held at The Bay

A Fall Fashion Show was held in The Bay on Saturday afternoon. A lovely selection of clothes for indoor and outdoor wear from the very young miss to the modern young matron were modeled. Very smart ensembles for the teenager and young men were in-

cluded in the showing. The commentator, Mrs. Pat Moore, ably described the fashions and Mrs. Irene Braybrook provided background music. Coffee and cookies were served the audience during intermission.

CROWN LUMBER APPOINTMENTS

R. A. GILES

L. B. HAGEN

R. P. Weeks, general manager of Crown Lumber Company Limited, announces the following appointments effective October 1st:

Rod A. Giles, manager of the Drayton Valley branch of Crown Lumber since 1962, is being transferred to Olds as manager.

Replacing Rod at Drayton Valley is Lloyd B. Hagen, who has been with Crown for 11 years in the Trochu branch. Lloyd is married and has four children.

Crown Lumber is a division of Crown Zellerbach Canada Limited, with headquarters in Calgary and 50 branches throughout Alberta and Saskatchewan. ***

SCHOOL FLASHES

Frank Maddock High School featured ballots and uneasy nominees last Friday, as the students voted in the personell of the Students Union.

Outcome of the election was as follows: President, Leo: na Kruger; Vice President, Brenda Kerr; Treasurer, Carol Kruger; Secretary, Cherryl Smith; Social Convenor, Claudette Coutu; Girls Sports Representative, Linda McMorris; Boys Sports Representative, Larry Metelski.

With only the room represen- tatives left to be chosen, soon the students union can shift into high gear with activities.

The student advisor this year is Mr. Woods.

Mr. Hutton, Mr. Hall and Miss Thompson, the three physical education teachers have come up with a plan for noon hour activities. Each student will be placed on a house league team where he will compete with other students in sports and scholastic endea- vors.

Trophies will be awarded to the house league with the greatest number of points. Students will also receive awards for individual points. These points can be obtained from positions on Students Un- ion, Yearbook and Newspaper staffs, and also from scholas- tic abilities. With all these activities the students will be- nefit scholastic-wise and de-

velop more school spirit.

Students of FMHS have been hit by the cross-country race bug--all students, girls and boys who feel like running from one and a half to two and a half miles are starting to practice at noon for the long race.

The students who come in first in the different classes of races will form teams which may travel to Athabaska in October to the zone finals.

The cheerleaders are now out to recruit new members for the coming season.

EXPORT
Smooth Brewed BEER

"Who pioneered an EXtra smooth beer?"

Molson's did - with 'EX'!

It took years of trial and error to come up with the exclusive smooth-brewed formula for EXPORT. You'll find the same great extra smooth taste in every bottle, 'EX' is the beer that's consistently better!

SMOOTH-BREWED IN ALBERTA BY MOLSON'S

Mrs. Dianne Hegholz

Art Exhibit Held Saturday

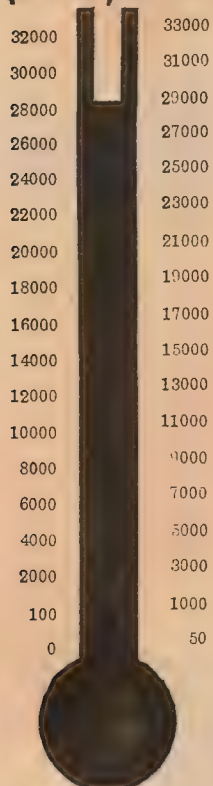

The Drayton Valley Community Art Class is to be commended on its fine art display held Saturday in the Elks Hall. For a town of this size it was good to see the high degree of local talent. A wide variety of scenes and still life paintings were on show.

A pair of pictures painted by Mrs. Dianne Hegholz, who instructed the class last year, was given as a door prize. Mrs. L. Torok-Both was the lucky winner.

To complete the afternoon a lovely tea was served by the ladies of the art club.

Anyone interested in taking art lessons is reminded the first class will be held October 6th in the auditorium of the Elementary School from 8:00 to 10:30 p.m. For further information phone Mrs. Zolmer at 542-3083 or Mrs. Nelson at 542-3269.

Centennial Fund \$34,000

For the week ending September 23rd, donors to the Centennial Fund are as follows: Scona Tire Company; Howard Jeune; Northwestern Utilities Ltd.; Drayton Bakery; Green T Texaco Service; Valley Tops; John W. Savage; Pan Geo Atlas Canada Ltd.; Robert Elliott.

Pee-Wee Football Games Re-scheduled Next Week

Due to circumstances surrounding the different aspects of the local Minor Football program some changes have been made in the Pee Wee Football schedule. The Eskimos and the Stampeders did not play their regular scheduled game last Sunday afternoon. Instead the game will go on Wednesday evening, September 28th at 5:00 p.m. at the Lions' West Valley Recreation Park.

The Pee Wee game between the same two teams scheduled for next Sunday will likely be postponed to Wednesday, October 5th because of the Bantam game between the Drayton Valley Wildcats and the Tuxedo Hilltops from Calgary. So far the Pee Wee program

is progressing very satisfactorily. Coaches, Ricky Simon, Dave Disney and Jim Ostrowerka of the Stampeders and Glen Cunningham and Doug Hall of the Eskimos are doing excellent work with the boys concerned and certainly much credit for the success of the program this year is due to the devoted work of those men.

The Eskimos and the Stampeders have four more regular games to play in their season before they open their playoffs for the Forster Trophy which is a two out of three game series. This series will get under way on Sunday, October 23rd at 2:00 p.m. and could finish on October 30th or November 6th, depending on the results of the first and second games played.

EVANSBURG NEWS

Mrs. M. Bruner, Correspondent

It seems harder and harder to keep up with the mailing deadline as far as news reports are concerned--in my case, anyway. However, sorry as I am to have missed last week's news, here are a few items for this week's column.

The District Agricultural Society held their regular meeting last week. Naturally, the main topic of discussion was the recent fair. It seems the affair is getting bigger every year and so more help will be needed to make the day run smoothly next year. High on the agenda were the plans for the forthcoming banquet to be held on the 21st of October. This is the night when everyone is welcome to have as much to eat as they wish for the sum of \$1.25 and to watch the lucky fair winners receive their special trophies, etc. This year it is planned to have a guest speaker and films of interest to those attending.

The district sends its sympathy to the Young family on the passing of Mr. Young, Sr. Mr. Young had been a long time resident of the village.

A miscellaneous shower was held in honor of Miss Shirley Wolff last week. Shirley, who will be married soon, received many pretty and useful gifts.

The High School graduates of the class of '66 were honored at a graduation banquet and dance on the 17th. Seventeen boys and girls received their graduation certificates in a very prettily decorated auditorium. Afterwards a good number of people joined in dancing.

It seems the new town hall will be officially opened very soon. Also, we will be able to dial directly to various places on the continent, shortly.

The Boy Scout District Council held their meeting in the village curling rink last week. The main problem here was

the lack of willingness on the part of some people to accept leadership for the boys who wish to join the organization. This seems to be a problem everywhere and it makes one wonder who will eventually assume leadership of various organizations if every one shies away from it now. Also discussed was the forthcoming banquet and annual meeting to be held here on November 25th.

Our accident for the week (Lee is well now), was Zane who ran into someone's head while playing rugby, thereby resulting in a day and a half in bed.

F.G.A. Meeting

Pembina Fish and Game Association meeting will be held at Lodgepole, for this month only, on Thursday, September 29th at 8:00 o'clock in the Lodgepole School Auditorium.

NOTICE

IN THE MATTER of the plebiscite required to be held in connection with the plan to establish the "Alberta Turkey Growers Marketing Board."

Every producer who purchased a minimum of 300 turkey poult during the twelve month period from August 1, 1965, to July 31, 1966, is eligible to register for voting purposes.

Every producer who is eligible to vote and who has not already registered, must register if he desires to vote as set forth in Order of Council 1623/66. Registration forms are available at all District Agriculturist offices or from the office of the Marketing Council, Edmonton.

Registration forms properly completed must be in the hands of the Returning Officer by October 14, 1966.

CLARKE H. FERRIES, Returning Officer,
Agricultural Products Marketing Council,
Room 104, Legislative Building,
Edmonton, Alberta.

ALDER FLATS NEWS

The farmers in the district are taking advantage of the nice harvest weather. One more week will see all the threshing done. Many are reporting good yields this year.

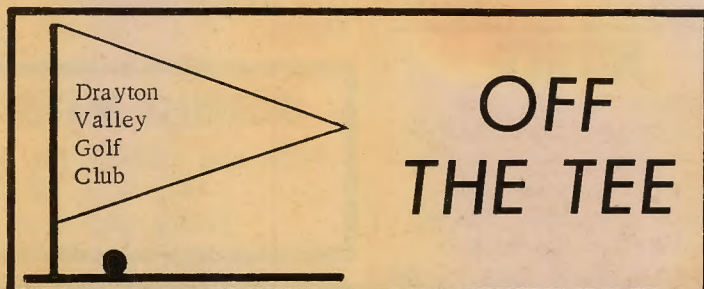

First meeting of the Home and School Association was held in the school on the evening of September 22nd with a very good attendance. The new officers elected were: President, Mrs. Lou Seely;

Secretary, Mrs. Darrell Hammond; Treasurer, Mrs. Joe Zingle; Correspondence Secretary, Mrs. Roy Nordahl.

The wedding of Ronnie Step-anuik and Irene Jeffcott on October 23rd brought to a close the big rush on weddings for Alder Flats this month.

Mr. Arnold Olsen is in Edmonton taking treatments for his back.

The Alder Flats Legion are making ready for its annual Harvest Frolic on September 30th.

The Drayton Valley Golf Club has recently completed two very successful golf tournaments, the invitational tournament and the mixed two-ball foursome tournament.

The club is now inviting all golfers and prospective gol-

fers to play free golf for the remainder of the season. This will give everyone an opportunity to enjoy the fine facilities that are available.

The Drayton Valley Golf Club wishes to extend its thanks for your support during the past season.

EARLY EYE CARE

Squinting in one or both eyes usually appears in early childhood and should have a doctor's attention as soon as possible. A simple operation is usually successful if treatment is given as soon as the condition is noticed, before the turning eye becomes defective through disuse.

ONE MISTAKE TOO MANY

An irate employee went to the paymaster and carefully counted the money in his pay envelope. "It's one dollar short". What's the meaning of this?"

The paymaster checked a record sheet and smiling broadly replied: "Last week we overpaid you a dollar. You didn't complain about the mistake then did you?"

"An occasional mistake I can overlook," answered the angry man, "but not two in a row."
